360° Care and Well-being

Multidisciplinary practice based research to achieve future proof, sustainable care

Projects – Informal care 2022-2023

- Dementia-friendly / family friendly hospitals
 - Qualitative research: perspective of staff, patients with dementia and informal carers
 - Inventarisation, proces evaluation of good practices
- Student carers at HOGENT & Erasmus Brussels
 - Quantitative study student-carers and lecturers
 - Interviews with student-counselors / student-advisors
 - Sensibilisation and workshops Steunpunt mantelzorg

During that time, books and studying were not what I was thinking of.

Projects – Informal care 2022-2023

- Erasmus+ project Diversity sensitive care of older persons with migrant background and their families => Leaflet

- Analyse of different datasets: Impact of Covid-pandemic on informal carers, InCare dataset (Eurocarers), Survey informal care Flanders

InCare

- Important share informal carers negatively assess the accessibility, affordability, and quality of LTC services and GP's
- **Inequalities** in accessibility, affordability, and quality are related to informal carers' living area, working conditions, income, and sense of obligation to care
- Many informal carers report being **uncertain** about the affordability and quality of LTC services
