

Building on the legacy of the previous "Eldicare: Matching Skills in a growing European Silver Economy"

July 2023	May 2024	July 2027
Kick-off Athens	First annual meeting Prague	End of the project

METROPOLITAN COLLEGE

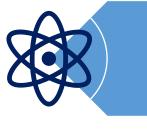

Eldicare 2.0

1. Develop a skills ecosystem for elderly care

2. Reskill and upskill professionals and informal carers to meet the needs of an ageing population

Main Objectives

3. Integrate digital, green, and entrepreneurial skills into elderly care practices

4. Bridge skills gaps and anticipate future needs with a skills anticipation mechanism

5. Foster systemic impact by uniting education providers and industry stakeholders

Main Activities and Results

Developing a strategic approach to sectoral cooperation on skills

A blueprint report on future elderly care

Development of a set of up-to-date Occupational Skills Profiles for elderly care

Design and deliver competence-based training curricula for the reskilling and upskilling of elderly care

Pilot the delivery of training in 6 countries

What's in it for Eurocarers members

- Enhancement of the quality and the attractiveness of training for elderly care at European, National, Regional and Local Level
- Hands-on solutions to generate long-term impact and sustainability in elderly care, tailored also to the needs of informal carers
- Up-to date occupational skills profiles for elderly care, that can be exploited to advocate for better support for informal carers
- Evidence-based policy recommendations that can support your advocacy work

How you can contribute

Take part in consultations, data collections, validation of findings

Share evidence, expertise and good practices

Have the voice of informal carers heard
